Our services include psychosocial support and protection, information and awareness sessions, social cohesion workshops, child-friendly space activities, vocational training courses, and rent, in-kind, and cash assistance

Konya (Community Center)

Our services include psychosocial support and protection, legal counseling, information and awareness sessions, vocational courses, rent assistance, and in-kind and cash assistance

Şanlıurfa (Community Center)

Our services include psychosocial support and protection, information and awareness sessions, social cohesion workshops, child-friendly space activities, and assistance with rent, in-kind donations, and cash assistance

Cross Border Programs

Afghanistan (Community Center)

Emergency assistance, food distribution, winter adaptation program, vocational courses

Morocco

Emergency relief, food distribution, water, sanitation and hygiene support, non-food distribution, access to health care, vocational training

Gaza

Psychosocial support activities, food distribution, water and hygiene support, cash assistance support

Libya

Emergency assistance, hot food distribution, non-food distribution

Lebanon

Emergency assistance, food distribution, ready-to-eat meals, hygiene support

Pakistan

Emergency relief, food distribution

Ukraine ve Moldova (Community Center)

Food distribution, access to health care, water, sanitation and hygiene support, cash assistance, education

Yemen

Food distribution, water, sanitation and hygiene support, covid-19 assistance and nurse training

Sahel : Burkina Faso, Chad, Niger

Emergency relief, food distribution, water, sanitation and hygiene support

Sudan

Emergency relief, food distribution

Syria (Campus and Mobile Clinic)

Psychosocial support activities, food distribution, water, sanitation and hygiene support, shelter support, non-food distribution, healthcare access support, mobile clinic, physiotherapy support, mobility devices support, in-kind aid support

IBC EARTHQUAKE PROJECTS

MAPPING OF IBC OPERATION IN TÜRKİYE

Türkiye

In the wake of the 7.7 and 7.6 magnitude earthquakes that struck Kahramanmaraş in 2023, IBC has remained committed to enhancing the quality of life in the region and alleviating the hardship and distress experienced by those affected.

In the aftermath of the catastrophic earthquake and the tragic loss of lives, the critical needs of earthquake victims are becoming increasingly apparent. IBC, which regularly conducts needs assessments in the earthquake zone, has provided mobile showers and toilets to earthquake victims in many areas and has served over 2,000 hot meals daily in mobile kitchens set up in the region. Approximately 3,500 individuals were provided with temporary accommodation by IBC in the Kırıkhan - Mavi Hilal Temporary Accommodation Center in the Kırıkhan district of Hatay and the Korea-Turkey Friendship City in the Serinyol district.

Furthermore, 13 community centers (two in Adıyaman, three in Gaziantep, four in Hatay, one in Kahramanmaraş, one in Kilis, and two in Şanlıurfa) and two children's caravans were operational in six regions. Our child, youth, women, mother and baby-friendly areas provide a range of services, including psychosocial support, education programs, health services, vocational training and social activities. Psychosocial support is offered to help people affected by the earthquake overcome trauma, while education programs and vocational training equip individuals with the skills to become self-sufficient.

Northern Syria

Eleven provinces in northern Syria have been affected by severe earthquakes, resulting in significant material and non-material damage. This has caused extensive destruction to settlements, facilities, and the region's infrastructure. In response, IBC has promptly initiated an assessment to identify the basic humanitarian assistance and needs in the region.

IBC's services included the provision of clean drinking water to areas without access to potable water, as well as the maintenance of water tanks and water networks and the provision of hygiene packs for individuals residing in camps.

Furthermore, a 100 cubic meter water tank has been constructed and another 50 cubic meter tank, damaged in the earthquake, has been rehabilitated. A solar panel project has also been completed to pump water to Soran, supporting 35,000 people daily.

MAPPING OF IBC OPERATION IN SYRIA

Following the earthquake, our organisation has been providing ongoing physiotherapy, mental and psychosocial support to those affected. We have also set up mobile clinics to ensure that disadvantaged individuals have access to health services, including outpatient treatment, chronic disease management, sexual and reproductive health services and psychological support. In addition, we provide comprehensive health support through ambulance and dental clinic services at health centres in the region.

IBC has developed projects to address the shelter problem in Northern Syria. These include the establishment of tent cities for IDPs in the region, which provide essential items such as blankets, beds, lighting, heating, and insulators. Additionally, the construction of multi-storey permanent buildings and a community center has commenced in the crisis zone. This is being carried out in accordance with the framework stipulated by the Public Administration, and a living space for 400 people is being established, including a community center.

In the coming years, IBC will continue to implement inclusive and sustainable projects to mitigate the effects of the earthquake and to ensure recovery and normalization of life.
