

the commissioner-general
المفوض العام

Dear Mr Muzaffer Baca,

Thank you for your generosity towards the people of Gaza at a time of unprecedented need.

Since October, thanks to the unwavering support of partners and friends like the International Blue Crescent Relief and Development Foundation, my UNRWA colleagues in Gaza have distributed food, clean water, and lifesaving medical supplies to more than a million children, women, and men. Our medical staff have conducted three million medical consultations in eight UNRWA clinics that are still operating, and through special mobile medical teams that visit UNRWA shelters, caring for thousands of displaced persons.

As the humanitarian crisis deepens and famine sets in, some 3,000 UNRWA staff support daily more than 1.4 million people in and around our shelters, especially in Rafah and the middle areas of the Gaza Strip. They do so despite their own displacement and bereavement, and because they know that without them more families will be left hungry and unable to access urgently needed medical treatment.

Tomorrow, thanks to generous funding from partners and friends like you, they will rise and do it again.

Your contribution is making a difference in more ways than you can imagine. For this, we cannot thank you enough.

Sincerely,

Philippe Lazzarini

Mr Muzaffer Baca
